Notes to the Interim Financial Statements
Six Months ended June 30, 2005 and 2004
(unaudited – Prepared by Management)

1. Nature of Operations

The Company was incorporated on August 24, 1984 in the Province of British Columbia. The principal business of the Company is the exploration and development of natural resource properties. The Company has interests in the Extra High Mineral Property located in British Columbia and Lithium mineral properties located in Ontario.

The Company also has an investment in software for online gaming and an investment in the securities of a publicly listed related company. The Company's revenues are derived from its investment in the online gaming software.

As of January 17, 2005, Lucky 1 Enterprises Inc. changed its name to Bronx Ventures Inc., its capital stock has been consolidated on the basis of 35 (old) common shares for 1 (new) common share and its authorized capital stock has been increased to an unlimited number of common shares and an unlimited number of preferred shares, in each case without nominal or par value.

Effective at the opening of business on January 24, 2005, the common shares of Lucky 1 Enterprises Inc. were de-listed from trading on the OTC Bulletin Board in the USA and the common shares of Bronx Ventures Inc. commenced trading on the OTC Bulletin Board under the trading symbol "BRXVF".

2. Going concern

These financial statements have been prepared on the basis of accounting principles applicable to a "going-concern", which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has incurred significant operating losses to date and has periodically had a working capital deficiency. Management's efforts are directed at pursuing opportunities of merit for the Company. It is the Company's intention to pursue equity and debt financings in order to conduct its operations without interruption.

These financial statements do not reflect adjustments that would be necessary if the "going-concern" assumptions were not appropriate because management believes that the actions already taken or planned will mitigate the adverse conditions.

If the "going-concern" assumptions were not appropriate for these financial statements, then adjustments would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

3. Significant accounting policies

(a) Basis of presentation

Comparative operation's figures for the periods ended June 30, 2005 and 2004 include the operations of Bronx Ventures Inc. All amounts are stated in Canadian dollars.

All share and per share amounts included in the accompanying financial statements have been restated to give retroactive effect to the 35:1 reverse stock split described in note 1.

3. Significant accounting policies (continued)

(b) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and would impact future results of operations and cash flows.

(c) Mineral properties

The Company is engaged in the acquisition, exploration and development of mineral properties. The mineral properties are recorded at cost. The costs relating to a property abandoned are written off when the decision to abandon is made.

(d) Loss per share

Loss per share is calculated using the weighted average number of shares outstanding.

(e) Foreign currency translation

Amounts recorded in foreign currency are translated into Canadian dollars as follows:

- (i) Monetary assets and liabilities at the rate of exchange in effect as at the balance sheet date;
- (ii) Non-monetary assets and liabilities at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
- (iii) Revenues and expenses (excluding amortization, which is translated at the same rate as the related asset) at the average rate of exchange for the year.

Gains and losses arising from this translation of foreign currency are included in the determination of net loss for the year.

(f) Marketable securities

Marketable securities are valued at the lower of cost and market at the balance sheet date.

3. Significant accounting policies (continued)

(g) Amortization

Property and equipment are recorded at cost. The Company amortizes its assets on a declining-balance basis as follows:

Furniture and equipment	- 20%
Computer equipment	- 30%

(h) Stock-based compensation plans

Effective January 2004, the Company adopted the new requirements of the Canadian Institute of Chartered Accountants (“CICA”) Handbook Section 3870, which requires an expense to be recognized in the financial statements for all forms of stock-based compensation, including stock options. Previously, the Company did not record any compensation cost on the granting of stock options to employees, officers, directors and consultants, as the exercise price was equal to or greater than the market price at the date of the grants. Options granted are accounted for using the fair value method where compensation expense is calculated using the Black-Scholes options pricing model.

As a result of this change in accounting, the opening deficit was restated on a retroactive basis to show the effect of compensation expense associated with stock options granted to employees, officers, directors and consultants from January 1, 2003 to December 31, 2003.

(i) Flow-through common shares

The Company finances its exploration programs through the issuance of flow-through common shares. Income tax deductions relating to these expenditures are claimable only by the investors. Proceeds from common shares issued pursuant to flow-through financings are credited to capital stock.

(j) Revenue recognition

The Company earns revenues from customers of Las Vegas from Home.com Entertainment Inc. (“Las Vegas”), a related company, in accordance with an agreement which entitles the Company to 40% of revenues that are generated by Las Vegas from certain online games. The Company recognizes these revenues as they are reported and received by Las Vegas.

(k) Income taxes

The Company follows the liability method based on the accounting recommendations for income taxes issued by the CICA. Under the liability method, future income tax assets and liabilities are computed based on differences between the carrying amounts of assets and liabilities on the balance sheet and their corresponding tax values, using the enacted income tax rates at each balance sheet date. Future income tax assets can also result by applying unused loss carry-forwards and other deductions. The valuation of any future income tax assets is reviewed annually and adjusted, if necessary, by use of a valuation allowance to reflect the estimated realizable amount.

4. Financial Instruments

(a) Fair value

The fair values of cash and term deposits, amounts receivable from related parties, accounts payable and accruals, and amounts payable to related parties approximate their carrying amounts because of their short term to maturity. The fair value of marketable securities approximate quoted market values, as disclosed in note 5.

(b) Interest rate risk

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

(c) Credit risk

The Company is not exposed to significant credit risk with respect to its cash and cash held on behalf of related party because the funds are held in a recognized financial institution.

(d) Market risk

The Company is exposed to significant market risk with respect to marketable securities from adverse fluctuations in their market value and in the event the marketable securities are delisted from public trading.

5. Marketable Securities

	June 30, 2005	December 31, 2004
Marketable securities (market values: June 30, 2005 - \$822,915; December 31, 2004 - \$382,893)	\$ 289,879	\$ 222,611

6. Investment in Inter-Café Project

During 2003, the Company deposited \$25,000 on an investment in the "Inter-Café Project", a business concept developed by Interfranchise Inc. to introduce online gaming to an Internet Café environment. The agreement with Interfranchise Inc. requires an additional investment of \$65,000 to acquire a 10% interest in the Inter-Café Project. During 2004, the Company invested the additional \$65,000 and completed its acquisition of a 10% interest in the Inter-Café Project for a total investment amounting to \$90,000. During the fourth quarter of 2004, the Company wrote-off this investment since recovery on the investment became doubtful.

8. Mineral Property

On March 26, 2004, the Company entered into an Option Agreement with an arm's length party (the "Optionor") in respect to certain mineral claims, which are situated in the Kamloops Mining Division in the Province of British Columbia (the "Extra High Mineral Property"). Pursuant to the terms of the Option Agreement, the Company has the right to acquire a 100% interest in the Extra High Mineral Property, subject to a 1½% net smelter returns royalty, by making staged cash payments totalling \$150,000 and incurring exploration expenditures on the Extra High Mineral Property totalling \$500,000 over a period of three years. Upon the Company earning a 100% interest in the Extra High Mineral Property, the Company may at any time purchase 50% of the net smelter returns royalty by paying to the Optionor the sum of \$500,000 leaving the Optionor with a 0.75% net smelter returns royalty.

The \$79,982 investment in the Extra High Mineral Property consists of \$45,000 in cash payments made to the Optionor, \$4,588 in cash payments made to maintain the Extra High Mineral Property in good standing and \$30,394 of exploration expenditures incurred since acquisition.

The Company has a 100% interest in lithium properties located in the Nipigon area, Thunder Bay Mining Division of North Western Ontario. During 2000, the Company wrote-off these mineral properties.

10. Capital stock (continued)

The following summarizes the stock options that have been granted, exercised, cancelled and expired during the six month period ended June 30, 2005.

Stock Options	Number of options **	Exercise price per option \$
Balance beginning of period	27,748	
Options expired	(27,748)	US \$ 5.25
Options granted	-	-
Options exercised	-	-
Options cancelled	-	-
Balance end of period	-	Nil

** One option is required to purchase 1 (one) common share.

As at June 30, 2005, there are no stock options which are outstanding.

The Company applies the fair value method using the Black-Scholes options pricing model in accounting for its stock options granted and, accordingly, compensation expense of \$131,200 was recognized as salaries expense, and \$15,068 was recognized as consulting expense in 2004.

The fair value of each option grant is calculated using the following weighted average assumptions:

	2004
Expected life (years)	1
Interest rate	3.00%
Volatility	239.39%
Dividend yield	0.00%

11. Commitments

- (a) The Company has a New Management Services Agreement with Kalpakian Bros. of B.C. Ltd., a private company which is owned by two directors. The remuneration for the services provided is \$20,000 plus G.S.T. per month. The agreement expires in October, 2005, and is renewable.

12. Income Taxes

	2004	2003
Future income tax assets		
Non-capital loss carry-forwards for Canadian purposes	\$ 2,696,000	\$ 3,237,000
Excess of undepreciated capital cost over net book value of fixed assets	640,000	637,000
Excess of unused exploration expenditures for Canadian purposes over accounting value of resource properties		
Unused earned depletion base	19,000	19,000
Unused cumulative Canadian exploration expenses	2,380,000	2,380,000
Unused cumulative Canadian development expenses	108,000	108,000
Unused cumulative foreign development expenses	217,000	217,000
	\$ 6,060,000	\$ 6,598,000
Tax rate - 38.00%	\$ 2,302,800	\$ 2,507,240
Less: Valuation allowance	(2,302,800)	(2,507,240)
	\$ 0	\$ 0

The valuation allowance reflects the Company's estimate that the tax assets will likely not be realized and, consequently, have not been recorded in these financial statements.

The Company has available approximate non-capital losses, which may be carried forward to apply against future income for Canadian tax purposes. The losses expire as follows:

2005	\$ 640,000
2006	725,000
2007	452,000
2008	319,000
2009	440,000
2010	105,000
2014	15,000
	\$ 2,696,000

The benefit of these losses has not been recorded in these financial statements.
