ZAB RESOURCES INC.
Notes to the Interim Financial Statements
Three Months ended March 31, 2007
(unaudited – Prepared by Management)

1. NATURE OF OPERATIONS

The Company was incorporated on August 24, 1984 in British Columbia. The principal business of the Company is the acquisition, exploration and, if warranted, the development of natural resource properties.

The Company had an investment in software for online gaming, which it sold during 2006. All the revenues were derived from this investment.

On January 17, 2005, Lucky 1 Enterprises Inc. changed its name to Bronx Ventures Inc. The Company then consolidated its capital stock on the basis of 35 (old) common shares for 1 (new) common share and its authorized capital stock was increased to an unlimited number of common and preferred shares without par value.

Effective January 24, 2005, the common shares of Lucky 1 Enterprises Inc. were de-listed from trading on the OTC Bulletin Board in the USA. The common shares of Bronx Ventures Inc. then commenced trading on the OTC Bulletin Board under the trading symbol "BRXVF".

On March 19, 2007, the Company changed its name to Zab Resources Inc. The Company then subdivided its capital stock on a 1 (old) share for 50 (new) shares basis. As a result, the shares of Bronx Ventures Inc. were de-listed from trading and the shares of Zab Resources Inc. commenced trading on the OTC Bulletin Board in the USA under the symbol "ZABRF" on March 22, 2007.

2. GOING-CONCERN

These financial statements have been prepared on the basis of accounting principles applicable to a "going-concern", which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Apart from the last two fiscal years, the Company has incurred significant operating losses, it sold its only source of revenue during 2006 and it has periodically had a working capital deficiency. Management's efforts are directed at pursuing opportunities of merit in the mining sector. It is the Company's intention to pursue equity and debt financings in order to conduct its operations without interruption.

These financial statements do not reflect adjustments that would be necessary if the "going-concern" assumptions were not appropriate because management believes that the actions already taken or planned will mitigate the adverse conditions.

If the "going-concern" assumptions were not appropriate for these financial statements, then adjustments would be necessary in the carrying values of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of presentation

These financial statements are prepared in accordance with Canadian generally accepted accounting principles and are stated in Canadian dollars.

ZAB RESOURCES INC.
Notes to the Interim Financial Statements
Three Months ended March 31, 2007
(unaudited – Prepared by Management)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates made in the preparation of these financial statements include valuation of marketable securities, mineral properties assessments for impairment, accrued liabilities, assumptions of the determination of fair value of stock-based compensation expense, rates of amortization for equipment and determination of valuation allowance for future income tax assets. Management believes the estimates are reasonable; however, actual results could differ from those estimates and would impact future results of operations and cash flows.

(c) Marketable securities

Marketable securities are carried at market value at the balance sheet date.

(d) Mineral properties

The Company capitalizes all costs related to investments in mineral property interests on a property-by-property basis. Such costs include mineral property acquisition costs and exploration and development expenditures, net of any recoveries. Costs are deferred until such time as the extent of mineralization has been determined and mineral property interests are either developed, the property is sold or the Company's mineral rights are allowed to lapse.

All capitalized costs are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount (as estimated by quantifiable evidence of an economic geological resource or reserve or by reference to option or joint venture expenditure commitments) or when, in the Company's assessment, it will be unable to sell the property for an amount greater than the deferred costs, the property is written down for the impairment in value.

From time to time the Company may acquire or dispose of a mineral property interest pursuant to the terms of an option agreement. As such, options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are not recorded at the time of the agreement. Option payments are recorded as property costs or recoveries when the payments are made or received.

Capitalized costs are depleted over the useful lives of the properties upon commencement of commercial production or written off if the properties are abandoned or the applicable mineral rights are allowed to lapse.

ZAB RESOURCES INC.
Notes to the Interim Financial Statements
Three Months ended March 31, 2007

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Amortization

Furniture and equipment are recorded at cost. The Company amortizes the costs of these assets on a declining-balance basis as follows:

Furniture and equipment	- 20%
Computer equipment	- 30%

(f) Asset retirement obligations

An asset retirement obligation is a legal obligation associated with the retirement of tangible long-lived assets the Company is required to settle. This would include obligations related to future removal of property and equipment, and site restoration costs. The Company recognizes the fair value of a liability for an asset retirement obligation in the year in which it is incurred when a reasonable estimate of the fair value can be made. The carrying amount of the long-lived asset is increased by the same amount as the liability. No obligation has been recognized.

(g) Income taxes

The Company follows the asset and liability method based on the accounting recommendations for income taxes issued by the Canadian Institute of Chartered Accountants. Under the liability method, future income tax assets and liabilities are computed based on differences between the carrying amounts of assets and liabilities on the balance sheet and their corresponding tax values, using the enacted income tax rates at each balance sheet date. Future income tax assets can also result by applying unused loss carry-forwards and other deductions. The valuation of any future income tax assets is reviewed annually and adjusted, if necessary, by use of a valuation allowance to reflect the estimated realizable amount.

(h) Revenue recognition

Until May 2006, the Company earned revenues from customers of Las Vegas from Home.com Entertainment Inc. ("Las Vegas"), a related company, in accordance with an agreement, which entitled the Company to 40% of revenues that were generated by Las Vegas from certain online games. The Company recognized these revenues as they were reported and received by Las Vegas.

(i) Stock-based compensation

The Company accounts for stock-based compensation expense using the fair value based method with respect to all stock-based payments to directors, employees and consultants, including awards that are direct awards of stock and call for settlement in cash or other assets or stock appreciation rights that call for settlement by issuance of equity instruments.

ZAB RESOURCES INC.
Notes to the Interim Financial Statements
Three Months ended March 31, 2007
(unaudited – Prepared by Management)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Stock-based compensation (Continued)

Under this method, stock-based payments are recorded as an expense over the vesting period or when the awards or rights are granted, with a corresponding increase to contributed surplus under shareholders' equity. When stock options are exercised, the corresponding fair value is transferred from contributed surplus to capital stock.

As a result of this accounting policy, the 2004 opening deficit was restated on a retroactive basis to show the effect of compensation expense associated with stock options granted to employees and directors from January 1, 2003 to December 31, 2003, which amounted to \$64,122 and an increase in contributed surplus from \$3,460 to \$67,582.

(j) Earnings (loss) per share

Basic earnings (loss) per share is computed using the weighted average number of common shares outstanding during the year.

Diluted earnings per share amounts are calculated giving effect to the potential dilution that would occur if securities or other contracts to issue common shares were exercised or converted to common shares. The treasury stock method is used to determine the dilutive effect of stock options and other instruments. The treasury stock method assumes that proceeds received from the exercise of stock options and warrants are used to repurchase common shares at the prevailing market rates. Stock options and warrants that are anti-dilutive are not included in the calculation.

(k) Flow-through common shares

Flow-through shares entitle a company that incurs certain resource expenditures in Canada to renounce them for tax purposes allowing the expenditures to be deducted for income tax purposes by the investors who purchased the shares. A future income tax liability arises from the renunciation of mineral exploration costs to investors of flow-through shares.

Funds raised through the issuance of flow-through shares are required to be expended on qualified Canadian mineral exploration expenditures, as defined pursuant to Canadian income tax legislation. The flow-through gross proceeds less the qualified expenditures made to date represent the funds received from flow-through share issuances that have not been spent and are held by the Company for such expenditures.

(l) Foreign currency translation

The functional currency of the Company is the Canadian dollar. Amounts recorded in foreign currency are translated into Canadian dollars as follows:

Notes to the Interim Financial Statements
Three Months ended March 31, 2007
(unaudited – Prepared by Management)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

- (i) Monetary assets and liabilities, at the rate of exchange in effect as at the balance sheet date;
- (ii) Non-monetary assets and liabilities, at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
- (iii) Revenues and expenses (excluding amortization, which is translated at the same rate as the related asset), at the average rate of exchange for the year.

Gains and losses arising from this translation of foreign currency are included in the determination of net income (loss) for the year.

4. FINANCIAL INSTRUMENTS

- (a) Fair value

The fair values of cash and term deposits, amounts receivable from related parties, accounts payable and accruals, and amounts payable to related parties approximate their carrying amounts because of their short term to maturity. The fair value of marketable securities approximate quoted market values, as disclosed in note 5.

- (b) Interest rate risk

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

- (c) Credit risk

The Company is not exposed to significant credit risk with respect to its cash and term deposits and cash held on behalf of a related party because the funds are held in a recognized financial institution.

- (d) Market risk

The Company is exposed to significant market risk with respect to marketable securities due to the adverse fluctuations in their market value and the possibility of being delisted from public trading.

7. MINERAL PROPERTIES

Extra High Property

On March 26, 2004, the Company entered into an Option Agreement with an arm's length party (the "Optionor") in respect to certain mineral claims, which are situated in the Kamloops Mining Division in British Columbia (the "Extra High Property"). Pursuant to the terms of the Option Agreement as amended on March 8, 2005, the Company has the right to acquire a 100% interest in the Extra High Property, subject to a 1.5% net smelter returns royalty, by making staged cash payments totalling \$150,000 and incurring exploration expenditures on the Extra High Property totalling \$500,000 over a period of three years. Upon the Company earning a 100% interest in the Extra High Property, the Company may at any time purchase 50% of the net smelter returns royalty by paying to the Optionor the sum of \$500,000 leaving the Optionor with a 0.75% net smelter returns royalty.

7. MINERAL PROPERTIES (Continued)

On September 12, 2006, the Company and the Optionor amended the Option Agreement by entering into an Amending Agreement whereby the Company was granted an extension period until June 26, 2007 to make the balance of cash payments to the Optionor and incur the remaining exploration expenditures on the Extra High Property.

On September 8, 2006, the Company entered into an Option Agreement with Colt, a related company, whereby Colt has the right to acquire a 50% undivided interest, subject to a 1.5% net smelter returns royalty payable to an arm's length party, in the Extra High Property by incurring exploration expenditures of \$240,000 on the Extra High Property by no later than February 28, 2007 and by making cash payments to the Company totaling \$133,770 by no later than March 26, 2007. On October 31, 2006, the Company and Colt entered into an Amending Agreement whereby Colt has been granted an extension period until June 26, 2007 to incur exploration expenditures on the Extra High Property and to make the cash payments to the Company. Upon Colt earning its 50% undivided interest in the Extra High Property, the Company and Colt shall thereafter equally contribute to all future exploration costs. If any party fails to contribute its share of future exploration costs, then its respective interest will be diluted on a straight-line basis. If any party's interest is diluted to less than a 10% interest, then that party's interest in the Extra High Property will be converted into a 0.5% net smelter returns royalty.

Investment in the Extra High Property consists of costs incurred as follows:

	Cumulative to March 31, 2007	Cumulative to December 31, 2006
Acquisition (property option payments)	\$ 90,000	\$ 90,000
Staking	3,639	3,639

Colt Capital Corp. property option payment	(133,770)	(65,000)
Total	\$ 244,078	\$ 312,412

Blunt Mountain Property

During 2006, the Company staked 22 mineral tenures located in the Omineca Mining Division of British Columbia (the "Blunt Mountain Property") for an acquisition cost of \$3,974 and spent \$2,134 in exploration related expenses for a total of \$6,108.

Whiteman Property

During 2006, the Company staked five mineral tenures located in the Vernon Mining Division of British Columbia (the "Whiteman Property") for an acquisition cost of \$695 and spent \$4,162 in exploration related expenses for a total of \$4,857. At year-end, this amount was written off as the Company decided to abandon the property.

8. CAPITAL STOCK (Continued)

There was an adjustment made by the Company's Transfer Agent and Registrar, Computershare Trust Company of Canada ("Computershare"), pursuant to the forward split of the Company's issued and outstanding shares on March 19, 2007 whereby Computershare made an adjustment by decreasing the number of issued and outstanding shares for the Company by 105 shares (pre-split) or 5,250 (post-split) of Zab Resources Inc. The decrease occurred as a result of Computershare over estimating the amount of shares that were needed for the transaction.

(c) Warrants

The following summarizes the warrants that have been granted, exercised, cancelled or expired during the years ended December 31, 2006 and 2005:

	Number of Shares	Exercise Price
