Six months ended June 30, 2012

The following discussion and analysis of the financial condition and financial position and results of operations of Kokomo Enterprises Inc. (the "Company" or "Kokomo") for the six months ended June 30, 2012 should be read in conjunction with the condensed interim unaudited financial statements and notes thereto for the six months ended June 30, 2012 and the annual audited financial statements for the years ended December 31, 2011 and 2010 and notes thereto. The condensed interim financial statements and notes thereto have not been reviewed by the Company's Auditor.

These financial statements, including comparatives, have been prepared using accounting policies in compliance with International Financing Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Company's financial statements are expressed in Canadian (CDN) Dollars. All amounts in this MD&A are in CDN dollars unless otherwise stated.

The following information is prepared as at August 8, 2012.

Forward-Looking Statements

Certain statements contained herein are "forward-looking" and are based on the opinions and estimates of management, or on opinions and estimates provided to and accepted by management. Forward-looking statements are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those expressed or implied. Readers are therefore cautioned not to place reliance on any forward-looking statement.

Description of Business

The Company is a junior mineral exploration company.

Kokomo is a reporting issuer in the Provinces of British Columbia, Alberta, Quebec and Ontario and files all public documents, including an AIF in its alternate form, on www.Sedar.com. The Company is a foreign private issuer in the United States of America and in this respect files, on EDGAR, its Annual Report on Form 20-F and other reports on Form 6K. The following link, <http://www.sec.gov/cgi-bin/browse-edgar?action=getcompany&CIK=825171> will give you direct access to the Company's filings with the United States Securities and Exchange Commission ("U.S. SEC").

Results of Operations

The Company was incorporated on August 24, 1984 in British Columbia, Canada. The principal business of the Company is the acquisition, exploration and, if warranted, the development of natural resource properties.

The common shares of the Company trade on the Canadian National Stock Exchange (CNSX) under the symbol “KKO”, and in the USA, the Company's common shares trade on the OTCQB under the trading symbol ‘KKOEF’. The Cusip number of the Company’s common shares is 500323100. The Company’s head office is located at 1000 – 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2K3. The Company’s registrar and transfer agent is Computershare Investor Services Inc. located at 510 Burrard Street, Vancouver, British Columbia, Canada, V6C 3B9.

At the Annual General Meeting of the Company’s shareholders which was held on June 20, 2012, the shareholders received the Audited Financial Statements for the years ended December 31, 2011 and 2010 and the Auditor’s Report thereon; fixed the number of Directors for the ensuing year at four; elected Bedo H. Kalpakian, Jacob H. Kalpakian, Gregory T. McFarlane and Fred A.C. Tejada as Directors of the Company; re-appointed the Company’s Auditor, Smythe Ratcliffe, Chartered Accountants, for the ensuing year and authorized the Directors to fix the remuneration to be paid to the Auditor and, re-approved the Company’s 2004 Stock Option Plan.

On May 6, 2011, the Company entered into a binding letter of intent (“LOI”) with Arqueana de Minerios E Metais Ltda. (“Arqueana”) and its shareholders (“Arqueana Group”) in respect to Arqueana’s mineral concessions and Arqueana’s real estate (“Arqueana’s Assets”). Pursuant to the LOI, the parties agreed to enter into a Definitive Property Option Agreement within a period of 60 business days whereby the Company would have been granted the right to acquire up to a 75% right, title and interest in Arqueana’s Assets by making staged cash payments totaling \$800,000, issuing a total number of 7,000,000 common shares of the Company and incurring property related expenditures totaling \$8,000,000 over a period of three years. Upon earning a 75% right, title and interest in Arqueana’s Assets, the Company would have been obligated, subject to certain terms and conditions, to issue an additional 3,000,000 common shares of the Company and to make additional payments totaling \$1,000,000. In respect to the then contemplated transaction, the Company hired the services of Wardrop, A Tetra Tech company, to prepare a technical report in accordance with NI 43-101 for a due diligence review on Arqueana’s Assets which was completed and had an effective date of August 12, 2011. During the months of August and September 2011, the Company attempted to renegotiate the terms and conditions of the LOI with the Arqueana Group. However, the Company’s attempts to renegotiate the terms and conditions of the LOI with the Arqueana Group were unsuccessful, as a result of which, on October 4, 2011 the Company decided not to proceed any further with the Arqueana Group in respect to Arqueana’s Assets, and the Company decided to abandon this project.

On June 1, 2011, the Company entered into an Investor Relations Agreement with an arm’s length party in Germany (the “Arm’s Length Party”) for a period of four months for a cash consideration of US \$750 and the granting of 120,000 incentive stock options exercisable at the price of \$0.15 per common share which have expired unexercised as of June 1, 2012. Due to the fact that the Arm’s Length Party has not exercised its incentive stock options, the Company is obligated to make a cash payment of US \$3,250 to the Arm’s Length Party.

For the six months ended June 30, 2012:-

- The Company’s operating expenses were \$82,610 as compared to \$127,605 for the corresponding period in 2011,
- The Company realized a net loss and comprehensive loss of \$82,610 as compared to \$127,605 for the corresponding period in 2011.

- The Company’s total assets was \$5,895 as compared to \$285,782 for the corresponding period in 2011. The impairment of mineral property interests in the amount of \$151,339 during the year ended December 31, 2011 contributed to the decrease of the Company’s total assets.
- The Company’s total liabilities was \$277,354 as compared to \$148,823 for the corresponding period in 2011.
- The Company had a working capital deficiency of \$271,460 as compared to a working capital deficiency of \$47,224 for the corresponding period in 2011.

The Company is presently not a party to any legal proceedings whatsoever.

Mineral Properties

1. Extra High Property

As at January 1, 2008 the Company held a 66% interest in the Extra High Property, with the remaining 34% interest being held by Colt Resources Inc. (“Colt”), a company that was formerly related by certain common directors and officers. The property is subject to a 1.5% net smelter returns royalty (“NSR”), 50% of which, or 0.75%, can be purchased at any time by paying \$500,000 to the NSR holder.

On January 21, 2008, the Company entered into an Option Agreement (the “2008 Option Agreement”) with Colt whereby Colt was granted the right and option to acquire, in two separate equal tranches, the Company’s 66% undivided interest in the Extra High Property. Pursuant to the 2008 Option Agreement, Colt exercised the first tranche of the option by making a cash payment of \$250,000 to the Company thus acquiring from the Company a 33% undivided interest in the Extra High Property. As a result of exercising the first tranche of the option, Colt increased its undivided interest in the Extra High Property to 67% and has become the operator of the Extra High Property.

In order to exercise the second tranche of the option, Colt was required to make a cash payment of \$250,000 to the Company on or before December 31, 2008. Colt did not exercise the second tranche of the option. Consequently, Colt now holds a 67% undivided interest in the Extra High Property and the Company now holds a 33% undivided interest in the Extra High Property. Pursuant to the Joint Venture which the Company and Colt have formed, each party shall henceforth contribute its proportionate share of property related expenditures. If any party fails to contribute its share of future property related expenditures, then its interest will be diluted on a straight-line basis. If any party’s interest is diluted to less than 10%, then that party’s interest in the Extra High Property will be converted into a 0.5% net smelter returns royalty.

As at the date of this MD&A, the Company holds a 33% undivided interest in the Extra High Property.

Neither the Company nor the operator of the Extra High Property has incurred any meaningful exploration or evaluation expenditures in recent years with respect to the Extra High Property. Accordingly, the Company has recognized an impairment provision of \$151,339 as at December 31, 2011 (2010 - \$nil) to reduce the carrying amount to \$1. If there is an indication in the future that the impairment loss recognized no longer exists or has decreased, the recoverable amount will be estimated and the carrying value of the property will be increased to its recoverable amount.

Investment in the Extra High Property consists of costs incurred as follows:

	2011	2010	2009	Cumulative to June 30, 2012
Acquisition (property option payments)	\$ 0	\$ 0	\$ 0	\$ 150,000
Staking	0	0	0	3,639
Assessment and miscellaneous	0	0	0	10,311
Geological, geochemical, trenching and drilling	0	263	1,194	431,160
Colt property option payments	0	0	0	(443,770)
Impairment	(151,339)	0	0	(151,339)
	\$ (151,339)	\$ 263	\$ 1,194	\$ 1

2. Ontario Lithium Properties (Mineral Leases)

These Mineral Leases were previously written off at the end of fiscal 2000. During the year ended December 31, 2008, the Company sold all of its Mineral Leases for gross proceeds of \$54,500. However, in the event that at a future date the Mineral Leases are placed into commercial production, then the Company is entitled to a 0.50% gross receipts royalty after six months from the date of commencement of commercial production.

3. Arqueana Property, Brazil

On May 6, 2011, the Company entered into a binding letter of intent (“LOI”) with Arqueana de Minerios E Metais Ltda. (“Arqueana”) and its shareholders (“Arqueana Group”) in respect to Arqueana’s mineral concessions and Arqueana’s real estate (“Arqueana’s Assets”). Pursuant to the LOI, the parties agreed to enter into a Definitive Property Option Agreement within a period of 60 business days whereby the Company would have been granted the right to acquire up to a 75% right, title and interest in Arqueana’s Assets by making staged cash payments totaling \$800,000, issuing a total number of 7,000,000 common shares of the Company and incurring property related expenditures totaling \$8,000,000 over a period of three years. Upon earning a 75% right, title and interest in Arqueana’s Assets, the Company would have been obligated, subject to certain terms and conditions, to issue an additional 3,000,000 common shares of the Company and to make additional payments totaling \$1,000,000. In respect to the then contemplated transaction, the Company hired the services of Wardrop, A Tetra Tech company, to prepare a technical report in accordance with NI 43-101 for a due diligence review on Arqueana’s Assets which was completed and had an effective date of August 12, 2011. During the months of August and September 2011, the Company attempted to renegotiate the terms and conditions of the LOI with the Arqueana Group. However, the Company’s attempts to renegotiate the terms and conditions of the LOI with the Arqueana Group were unsuccessful, as a result of which, on October 4, 2011 the Company decided not to proceed any further with the Arqueana Group in respect to Arqueana’s Assets, and the Company decided to abandon this project.

Costs incurred in respect to the Arqueana Property are as follows:

	2011
Due Diligence Report	\$ 37,492
Advance payment as per Letter of Intent	2,500
Consulting	9,002
Travel	13,326
Miscellaneous	2,608
	\$ 64,928

As at December 31, 2011, the Company has written-off the costs that it has incurred in respect to the Arqueana Property.

Second Quarter (June 30, 2012)

During the three months [second quarter] period ended June 30, 2012:

- The Company had a net loss and comprehensive loss of \$35,397 or \$0.00 per share as compared to a net loss and comprehensive loss of \$76,440 or \$0.00 per share for the same three months [second quarter] period ended June 30, 2011.
- The Company’s operating costs decreased to \$35,397 as compared to \$76,440 for the same period in 2011. The reduction in Management fees mainly contributed to the decrease of operating costs.
- The Company’s weighted average number of common shares were 16,575,278 as compared to 15,391,526 for the corresponding period in 2011.

The Company’s business is not of a seasonal nature.

Risks related to our Business

The Company, and the securities of the Company, should be considered a highly speculative investment. The following risk factors should be given special consideration when evaluating an investment in any of the Company's securities.

The Company does not generate any revenues and does not anticipate generating any revenues in the foreseeable future. Should the Company at a future date generate any revenues, then the Company intends to retain its earnings in order to finance growth. Furthermore, the Company has not paid any dividends in the past and does not expect to pay any dividends in the future.

There are a number of outstanding securities and agreements pursuant to which common shares of the Company may be issued in the future. This will result in further dilution to the Company's shareholders.

Governmental regulations, including those regulations governing the protection of the environment, taxes, labour standards, occupational health, waste disposal, mine safety and other matters, could have an adverse impact on the Company.

Trading in the common shares of the Company may be halted or may be subject to cease trade order at any time and for any reason, including the failure by the Company to submit documents to the Regulatory Authorities within the time periods required.

The exploration of mineral properties involves significant risks which even experience, knowledge and careful evaluation may not be able to avoid. The prices of metals have fluctuated widely, particularly in recent years as it is affected by numerous factors which are beyond the Company's control including international, economic and political trends, expectations of inflation or deflation, currency exchange fluctuations, interest rate fluctuations, global or regional consumptive patterns, speculative activities and increased production due to new extraction methods. The effect of these factors on the price of metals, and therefore the economic viability of the Company's interests in mineral exploration properties cannot be accurately predicted. Furthermore, changing conditions in the financial markets, and Canadian Income Tax legislation may have a direct adverse impact on the Company's ability to raise funds for its interests in mineral exploration properties. A drop in the availability of equity financings will likely impede spending on mineral properties. As a result of all these significant risks, it is quite possible that the Company may lose all its investments in the Company's interests in mineral properties.

Liquidity and Capital Resources

The Company has incurred operating losses over the past three fiscal years, has limited resources, and no sources of operating cash flow.

During 2012, the Company shall require at least \$350,000 so as to conduct its operations uninterrupted. In order to meet this requirement, the Company intends to seek equity and/or debt financings through private placements and/or public offerings and/or loans. In the past, the Company has been successful in securing equity and debt financings in order to conduct its operations uninterrupted. While the Company does not give any assurances whatsoever that in the future it will continue being successful in securing equity and/or debt financings in order to conduct its operations uninterrupted, it is the Company's intention to pursue these methods for future funding of the Company.

As at June 30, 2012:-

Financial Instruments

The Company has classified its cash as held-for-trading; and accounts payable and accrued liabilities and due to related parties, as other financial liabilities.

The carrying values of cash and accounts payable and accrued liabilities approximate their fair values due to the relatively short periods to maturity of these financial instruments. The fair value of due to related parties cannot be reliably measured as there is no market for such instruments.

The Company’s risk exposure and the impact on the Company’s financial instruments are summarized below:

(a) Credit risk

Credit risk arises from the non-performance of counterparties of contractual financial obligations. The Company’s concentration of credit risk and maximum exposure thereto is as follows relating to funds held in Canada:

	June 30 2012	June 30, 2011
Bank accounts	\$ 677	\$ 95,320

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying its financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. At June 30, 2012, the Company had accounts payable excluding accrued liabilities of \$99,588 (June 30 2011- \$63,206), which are due within 30 days, and amounts payable to related parties of \$174,516 (June 30, 2011 - \$82,367) , which are due on demand.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk. The Company is not exposed to foreign currency risk.

(i) Interest rate risk

The Company’s cash consists of cash held in bank accounts earning interest at variable interest rates. Fluctuations in market rates do not have a significant impact on estimated fair values as of June 30, 2012. The Company is not exposed to significant interest rate risk.

(ii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

Disclosure over Internal Controls

Disclosure controls and procedures (“DC&P”) are designed to provide reasonable assurance that all relevant information is gathered and reported within the time periods required by securities regulations and that information required to be disclosed is accumulated and communicated to management. Internal controls over financial reporting (“ICFR”) are intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Canadian generally accepted accounting principles.

Venture Issuers are not required to provide representations in their annual and interim filings relating to the establishment and maintenance of DC&P and ICFR, as defined in National Instrument NI 52-109. In particular, the CEO and CFO certifying officers do not make any representations relating to the establishments and maintenance of (a) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded and reported within the time periods specified in securities legislation and (b) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer’s GAAP. The issuer’s certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in their certificates regarding absence of misrepresentations and fair disclosure of financial information. Investors should be aware that inherent limitations on the ability of certifying officers of a Venture Issuer to design and implement on a cost effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.
